UDP/IP Addresses – U.S. Equity Market Data Feeds

Overview

Nasdaq offers many of its direct data feed products in a UDP/IP protocol option. Please refer to **Nasdaq Global Data Products - Direct Data Feeds page** for product description and technical interface documentation for the U.S. based products.

As a service to network providers, Nasdaq maintains a consolidated list of IP addresses for its UDP/IP services. Please note that Nasdaq reserves the right to modify this IP address information as needed for network and operational reasons.

Products by Market
